

# AP English Literature and Composition

For Juniors and Seniors

*How many ideas can fit in your reality?*

In this class you will

- **read the books that built the modern world** and
- participate in conversations about **the ideas that keep that world turning.**

Books, poetry, music, movies, and art of all kinds will propel us forward as we explore

- **what life means,**
- **why it matters, and**
- **how to live it.**

Along the way, you will become

- **a cultural insider** and
- **equipped to pass the AP English Literature and Composition test,** which awards college credit at Utah State, Weber State, the University of Utah, Westminster College, Brigham Young University, and virtually any other college or university in Utah (and outside of it) that is worth attending.
