***NOT SURE
WHETHER
COLLEGE IS
RIGHT FOR YOU?
THAT'S OKAY!***

*Exploring a few
classes in an area you
are interested in is a
good way to test the
waters.*

*Just be sure not to
jump around too
much. Too many
random classes in
different areas of
study can cause
problems later on.*

*If you decide that
you want to dabble in
several different areas
of interest flip this
sheet over and start
checking off classes
for your General
Education Certificate
of Completion.*

*This will help you
knock off your
generals so that when
you are ready to go
to college after high
school, you can get
right down to taking
the classes you love in
your program of study.*
