

# PRE-K EARLY CHILDHOOD EP.

## CHILD DEVELOPMENT

In Child Development you will learn how children grow and develop from conception to preschool. You will also have an opportunity to take home a RealCare baby.

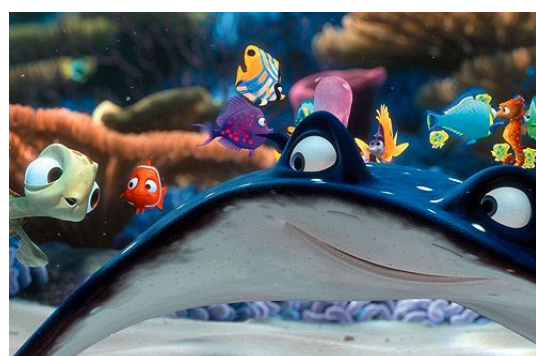

## EARLY CHILDHOOD I

In Early Childhood I you will prepare to be a preschool teacher. We teach you math, science, art and language arts skills for preschool (think popping popcorn, making slime and math using M&Ms!)

Take this class to prepare you to teach in our Silver Pups Preschool.

## PRESCHOOL (ECE2/ECE3)

Come be a Preschool teacher! There is nothing better than receiving hugs and being told you're their favorite teacher from our cute 4-year-olds. You also get to be a part of a child's learning and growth, which is such a special experience. And if that is not enough, we eat a snack every day!

This is a full-year class and 2 periods in length, you can either be an A day (2/3 period) or a B day (6/7 period) teacher.

## THE ART OF TAKING CARE OF YOUNG CHILDREN
