HIGH SCHOOL GRADUATION REQUIREMENTS

In order to graduate from Riverton High School and receive a Riverton High School diploma, students must:

- 1) Earn 27 credits
- 2) Complete all required class graduation requirements as listed below
- 3) Pass the required Civics Exam, and
- 4) Meet all Riverton High School attendance policy requirements

There are 27.0 credits required for graduation in the following areas:

Language Arts4.0 Credits - 1.0 Language Arts 9 - 1.0 Language Arts 10 - 1.0 Language Arts 11 - 1.0 Language Arts 12	Social Studies 3.5 Credits - 1.0 World Geography - 1.0 World History - 1.0 U.S. History - 0.5 U.S. Government & Citizenship
Mathematics3.0 Credits - 2.0 Foundation/Core Credits - 1.0 Additional Foundation/Core or Advanced, Applied, or Foundation (AAF) credit	Science3.0 Credits - 2.0 Foundation/Core Credits from 2 different areas: Earth Science, Biology, Chemistry, Physics, or Computer Science - 1.0 1.0 Additional Foundation/Core or Advanced, Applied, or Foundation (AAF) credit
Health & Physical Education ..2.0 Credits - 0.5 Health 2 - 0.5 Participation Skills & Techniques (PST)* - 0.5 Fitness for Life - 0.5 Individual Lifetime Activity (ILA)* * Two seasons of a UHSSA Athletic Participation/Team Sport (1.0 Credit Maximum) can be used in place of PST or ILA	Fine Arts1.5 Credits
	Career & Technical Ed1.5 Credits
	Digital Studies0.5 Credits
	Financial Literacy0.5 Credits
	Elective Courses8.0 Credits
Total Credits:	27.0 Credits

4-YEAR PLAN EXAMPLE

9TH Grade Class Requirements

Language Arts 9 (1.0 credits)
 World Geography (1.0 credits)
 Math (1.0 credits)
 Science (1.0 credits)
 PST (0.5 credits)
 Electives (student choice)

11TH Grade Class Requirements

Language Arts 11 (1.0 credits)
 US History (1.0 credits)
 Math (1.0 credits)
 Science (1.0 credits)
 Financial Literacy (0.5 credits)
 Electives (student choice)

10TH Grade Class Requirements

Language Arts 10 (1.0 credits)
 World History (1.0 credits)
 Math (1.0 credits)
 Science (1.0 credits)
 Health (0.5 credits)
 Fitness for Life (0.5 credits)
 Driver's Ed/ACT Prep (0.5 credits)
 Digital Studies (0.5 credits)
 Electives (student choice)

12TH Grade Class Requirements

Language Arts 12 (1.0 credits)
 US Government (0.5 credits)
 Electives (student choice)

FOUNDATION/CORE SCIENCE COURSES

Minimum of 2.0 credits in separate foundation/core areas.
 3.0 credits of science are required for graduation.

Earth Science	Biology	Chemistry	Physics	Computer Programming
Earth Science (9 th grade only)	Biology	Chemistry	Physics	Computer Programming
	AP Biology	Chemistry Honors	Physics Honors	
	BIO 1010/1015	AP Chemistry	AP Physics	

Advanced, Applied, Foundation Courses (AAF) Science Courses

Astronomy	Zoology	Animal Science 1	Medical Anatomy & Physiology
Agricultural Science	Wildlife Biology	Human Anatomy 1 & 2	

FOUNDATION/CORE MATH COURSES

Minimum of 2.0 credits in foundation/core areas.
3.0 credits of math are required for graduation.

Foundation/Core Classes	Advanced, Applied, Foundation Courses (AAF) Math Courses
Secondary Math 1 (9 th grade only)	Accounting 1
Secondary Math 1 Honors (9 th grade only)	Accounting 2
Secondary Math 2	College Prep Math
Secondary Math 2 Honors	Computer Programming
Secondary Math 2A	AP Statistics
Secondary Math 3	AP Calculus AB
Secondary Math 3 Honors	AP Calculus AB/BC
Secondary Math 3A	Math 1030
	Math 1040
	Math 1050
	Math 1060
	Math of Personal Finance

LEGEND

AP - Advanced Placement	CE - Concurrent Enrollment
Blended - This is a blended course, classes will be held in-person and online. In-person and online days will be determined by the teacher of the course.	Permission - Student must get approval from the teacher to take this course.
Audition - Students are responsible to seek out audition information and tryout to remain in this course.	Referral - Permission from a teacher or counselors is required to be in the course.
Application - Students are responsible to seek out, complete and turn in the application to stay in this course.	

* For the most up-to-date information, please ensure that you look at the latest copy of the RHS Course Catalog found on the RHS website.

RHS COURSE DESCRIPTIONS

LANGUAGE ARTS

AP Language and Composition		
46310	\$15.00	Description: Do you ever watch the news or listen to politicians and realize that there's a problem with the logic, with the way they evade the issues that really matter? Do you wonder why people can't seem to reach a consensus? While this class won't fix all those problems, it will give you the skills you need to see and identify how language is being used to manipulate or enlighten, to instruct or control. This course is about empowering you to be an analytical, thinking, articulate citizen who can contribute appropriately and thoughtfully to your community now and in the future. You will find your voice, have a platform on which to express it, and learn to say what you mean because you've considered what it means and why. This is an accelerated course. University credit can be earned with successful performance on the AP exam.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: English 10, 11, 12	

AP Literature and Composition		
46300	\$	Description: Read the best books and become a cultural insider in this course. This is a college-level introductory literary analysis course. This course is designed to increase students' abilities as skilled readers of literary texts in a variety of genres. Students will critically read literature selections and write analytically about what they have read. The course prepares students for the AP Literature and Composition exam. Students passing the exam can earn college credit.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: English 11, 12	

Creative Writing 1		
46551		Description: This semester course is designed as an introduction to imaginative writing of personal experiences, character sketches, short fiction, and poetry. Students who enroll in Creative Writing will develop composition skills and strategies that transcend genre and curricula in order to become more proficient and prepared writers. It provides students with the opportunity to prepare manuscripts for publication, awards, and scholarships. Creative Writing is perfect for students who want to improve their writing skills, dive into creative genres, or explore writing beyond analysis and argument.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective, Senior English	

Creative Writing 2		
46561		Prerequisite: Creative Writing 1
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

		<p>Description: This course is designed to emphasize imaginative writing through the study and writing of longer fiction, one-act plays, and poetry. During Creative Writing 2, students will curate and compose a literary magazine that will be published and distributed to the Riverton High student body. During the process, students will work in committees and under the direction of fellow students. Students will work collaboratively on the literary magazine and individually on personal projects. Creative Writing 2 is perfect for students who are interested in publication, rigorous writing practice, and collaborative composition. To enroll in Creative Writing 2, students must have completed Creative Writing 1 with at least a C grade.</p>
--	--	---

ENG 1010 - Intro to Writing		
96001	\$	<p>Prerequisite: Meet SLCC Requirements</p> <p>Description: This course is a college-level course designed to introduce students to key concepts regarding academic writing with a focus on research and rhetorical analysis. Students will write Narrative Essays, Rhetorical Analysis Essays, and a Final Research-Argument Essay that incorporates all facets of a research project. The reading material will support the type of writing students will produce. Students can receive college credit if they meet certain grade-based criteria.</p>
Grade Level: 12	CE	
Credit: .5	Can count for: Senior English	

ENG 2010 - Intermediate Writing		
96111	\$	<p>Prerequisite: Pass ENG 1010 with a C or better or score a 3 or higher on the AP Lang exam.</p> <p>Description: This course extends the principles of academic writing introduced in ENGL 1010; namely, writing as a means of participating in a conversation, the examination of biases, and the various mediums by which to express information. Students will examine writing in social media, do a Synthesis Research Project, an Argumentative Literary Analysis, and an Argumentative Issues Presentation. Reading material will support the type of writing students will produce.</p>
Grade Level: 12	CE	
Credit: .5	Can count for: Senior English	

ENG 2200 - Intro to Literature		
96151	\$	<p>Prerequisite: Apply to Weber</p> <p>Description: An introduction to three major literary genres: fiction, poetry, and drama. Texts are drawn from a diverse range of authors from various cultures and historical periods. Students will learn how to read literary texts closely and critically, and how literature—and reading in general—can be a meaningful part of their daily lives. Course includes relevant practice in the principles of successful writing, including drafting, revising, and editing. This English course may also transfer to universities/colleges as a Humanities credit. See College Transfer Guide.</p>
Grade Level: 12	CE	
Credit: 0.5	Can count for: Senior English	

Fantasy/Sci Fiction

46611		Description: This course is designed for students who devour science fiction and fantasy, or those who want to expand their reading options in these genres. We will primarily read short stories and novels, and we will create original characters, worlds and other projects. The goal is to increase reading and comprehension skills, broaden thinking and analysis skills, create original work, and build a community of similar interests.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

Journalism 1		
46400		Description: This year long course (with a semester option) is based on the Utah English Language Arts (ELA) Core Standards, and is designed to teach students about newspaper writing and producing. Newspaper writing, interviewing, editing, and layout production are emphasized. Students will produce installments of a print newspaper that they distribute to the school throughout the year and that will become an archived part of the school's history.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective, Senior English	

Language Arts 10		
46010		Description: This course, based on the 10th Grade Utah English Language Arts (ELA) Core Standards, is designed for grade-level instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for effective communication.
Grade Level: 10		
Credit: 1.0	Can count for: English 10	

Language Arts 10 Honors		
46020		Description: This course, based on the 10th Grade Utah English Language Arts (ELA) Core Standards, is designed for students who qualify for more advanced instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for effective communication. This course prepares students for Advanced Placement Language (AP LANG), Advanced Placement Literature (AP LIT), or Language Arts 11 Honors (LA11H).
Grade Level: 10		
Credit: 1.0	Can count for: English 10	

Language Arts 10 with Reading		
46000		Prerequisite: RI score markedly below grade level with referral from 9th grade English teacher Description: This course provides a small-class, intensive experience for students who score below grade level on standardized reading tests and receive a recommendation from their LA 9 teacher. Students must commit to the intensive, in-class structure of the course and can expect to see improvements in reading ability and comprehension as a result.
Grade Level: 10	Referral	
Credit: 1.0	Can count for: English 10	

Language Arts 11		
46110		Description: This course, based on the 11th Grade Utah English Language Arts (ELA) Core Standards, is designed for grade-level instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for effective communication, with an emphasis on American literary texts.
Grade Level: 11		
Credit: 1.0	Can count for: English 11	

Language Arts 11 & US History/Blended		
46111		Prerequisite: take with US History
Grade Level: 11	Blended	Description: This course combines the Utah Core Standards for U.S. History and Language Arts 11. Students receive credit for two full courses. Designed around documents from and about industrialization through today's modern issues, this class focuses on developing critical thinking, evaluation, reading comprehension, and writing skills. Student attendance is mandatory for scheduled discussions, writing conferences, assessments, and review, feedback, and/or retakes at the end of each module, which adds up to less than 10 times a quarter. All other work will be completed online via a Canvas course, remotely. Teachers are available every day during assigned class periods for support with online content, as well as for scheduled in-person meetings. Recommended for students who require flexibility with scheduling, who are excellent time managers and self advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers. A caution to students: you will be responsible for your progress throughout the course. If you struggle with time management, self-starting, on task behaviors, etc. consult with a teacher or counselor before signing up for this course.
Credit: 1.0	Can count for: English 11	

Language Arts 11 Honors		
46120		Description: You know those conversations that go over your head because you don't know what everyone is talking about? This course is the antidote for that situation. With a broad range of American literature and documents as well as a study of current issues, this class does all the standard language arts stuff, but is also designed to help you feel like a smart, engaged citizen. You feel smart because you become smart. This course prepares students for enrollment in AP Language & Composition and AP Literature & Composition, is a great companion to AP U.S. History, and is based on the Utah Language arts Core standards.
Grade Level: 11		
Credit: 1.0	Can count for: English 11	

Language Arts 11 with Reading		
46112		Prerequisite: RI score markedly below grade level with referral from 10th grade English teacher
Grade Level: 11	Referral	Description: This course provides a small-class, intensive experience for students who score below grade level on standardized reading tests and receive a recommendation from their LA 10 teacher. Students must commit to the intensive, in-class structure of the course and can expect to see improvements in reading ability and comprehension as a result.
Credit: 1.0	Can count for: English 11	

Language Arts 12		
46210		Prerequisite: Language Arts 11
Grade Level: 44147		Description: This course, based on the 12th Grade Utah English Language Arts (ELA) Core Standards, is designed for grade-level instruction in reading comprehension, writing, methods of
Credit: 1.0	Can count for: English 12	

		inquiry, and the processes, skills, and strategies for effective communication, with an emphasis on British literary texts.
--	--	---

Language Arts 12 Blended		
46211		Prerequisite: Language Arts 11
Grade Level: 44147	Blended	Description: This course is recommended for students who would like flexibility within the school day schedule, and who are excellent time managers and self-advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers. Student attendance is mandatory for scheduled discussions, writing conferences, assessments, reviews, feedback, and/or retakes at the end of each module. Attendance is also mandatory for an individual or small group as the teacher sees necessary. All other work is completed online via the Canvas LMS. The teacher will be available during assigned class periods to support students with the online content, pacing, and mastery of content. Coursework includes a study of various genres of literature and non-fiction. Students will develop the skills to determine the author's intent and theme, and to recognize the techniques used by the author to deliver his or her message. Students will improve writing skills through a research project and other writing assignments.
Credit: 1.0	Can count for: English 12	

Language Arts 12 College Prep		
46220		Prerequisite: Language Arts 11
Grade Level: 44147		Description: This course, based on Utah 12th grade English Language Arts (ELA) Core Standards and College and Career Ready Standards, is designed for students who plan to attend college. The course stresses reading, vocabulary, writing, and analytical skills necessary for college success. The course content includes an introduction to British literature and experience in research.
Credit: 1.0	Can count for: English 12	

Literature and Film		
47011		Prerequisite: Parental permission for PG-13 films
Grade Level: 11 - 12		Description: Do you think that movies are underrated as a key element of literature in modern society? This class looks at film as a form of literature, examining it in various genres and comparing its strengths and weaknesses to other forms of literature in the same genre. The "Literature" part of the course will consist of novels, short stories, memoirs, essays and poetry. The "Film" part of the course will consist of movies, documentaries and short video clips. JSD requires parental permission for films rated PG-13
Credit: .5	Can count for: Elective, Senior English	

Mythology 1		
46511		Description: A whole class focused on the myths of ancient cultures. From the Greek Gods to Thor, to King Arthur, we examine the questions we've been asking for centuries and the various ways humans come up with those answers. With humorous reader's theaters and creative projects, we play with
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

		the biggest ideas. In this semester course, we focus primarily on the Greek & Roman myths.
--	--	--

Mythology 2		
46541		Description: A whole class focused on the myths of ancient cultures. From the Greek Gods to Thor, to King Arthur, we examine the questions we've been asking for centuries and the various ways humans come up with those answers. With humorous reader's theaters and creative projects, we play with the biggest ideas. In this semester course, we focus on the Legend of King Arthur and Norse Mythology, and briefly discuss Egyptian mythology. Mythology I is NOT a prerequisite for this course.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

THEA 1013 - Introduction to Theatre		
16701	\$	Prerequisite: Meet SLCC requirements Description: Don't throw away your shot to earn .5 RHS English or art credit and 3 GE credits through SLCC, all while learning how telling stories around the fire transformed into Broadway! Students will read, discuss, and watch the development of dramatic literature, stage technology and everything in between, from Greek classics to Broadway.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Art, Senior English	

MATH

Accounting 1		
83001		Description: "Accounting is the language of Business!" This course provides students with the knowledge of business organizations by understanding the accounting theory, concepts and procedures. Accounting 1 focuses on the double-entry accounting systems related to a service business organized as a sole proprietorship. Students will acquire knowledge of journalizing and posting transactions, worksheets, financial statements and accounting concepts and procedures essential to the accounting cycle.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE, Math AAF	

Accounting 2		
83011		Prerequisite: Accounting 1 Description: Accounting 2 continues to apply the concepts of double-entry accounting to a merchandising business. Additional skills include dealing with uncollectible accounts, calculating depreciation on assets, interpreting financial information, calculating notes and interest, payroll systems and special journals.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE, Math AAF	

AP Calculus AB		
51350	15	Prerequisite: Secondary Math 3 Description: This is an introduction to differential and integral calculus topics which are equivalent to a college level Calculus 1 course. The course uses advanced skills in algebra, geometry,
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Math	

		and trigonometry to analyze real world problems involving movement and variable rates of change. Graphing calculator investigations are an integral part of the course and the Advanced Placement (AP) exam. University credit can be earned with a successful performance on the (AP) exam.
--	--	--

AP Calculus AB/BC		
51360	15	Prerequisite: Secondary Math 3 Description: This course teaches the extension of the differential and integral calculus topics of Calculus AB, which are equivalent to two semesters of college level Calculus 1 and 2 courses. The course uses advanced skills in algebra, geometry, and trigonometry to analyze real world problems involving movement and variable rates of change. This course focuses on the application of calculus using vectors, parametric/polar modeling, and power series. Graphing calculator investigations are an integral part of the course and the Advanced Placement exam. University credit can be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 11 - 12	AP	
Credit: 2.00	Can count for: Math	

AP Statistics		
51400	15	Prerequisite: Secondary Math 3 Description: An introductory, non-calculus based college level course which introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data, including exploring data, statistical inference, planning a study, and using probability and simulation to anticipate patterns. Graphing calculators with statistical capabilities are an integral part of the course and of the Advanced Placement (AP) exam.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Math	

College Prep Math		
51260		Prerequisite: Secondary Math 3 Description: This course formalizes and reinforces concepts from the Secondary Mathematics series to provide students with the foundational skills and understanding prerequisite to College Algebra (MATH 1050). Students will reason abstractly and quantitatively while solving linear and quadratic equations and linear inequalities. They will efficiently use polynomial and rational expressions and functions, radicals and complex numbers, and exponential and logarithmic expressions and functions to model and solve mathematical problems. They will explore conic sections and represent parabolic data.
Grade Level: 11 - 12		
Credit: 1.0	Can count for: Math AAF	

Computer Programming 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: Math AAF, DS, S, CTE	

Computer Programming 2		
-------------------------------	--	--

8122		Prerequisite: Computer Programming 1 OR Teacher Approval Description: Programming 2 is a problem solving class that builds on the concepts introduced in Computer Programming 1. The course introduces students to more complex data structures and their uses, including sequential files, arrays and classes using the Java programming language.
Grade Level: 44481		
Credit: 0.5	Can count for: CTE, S, Math AAF	

Math 1030/Quantitative Analysis		
96581	15	Prerequisite: Secondary Math 3, Meet SLCC Requirements Description: This course is an appropriate culminating mathematics course for the general studies or liberal arts student majoring in humanities or other programs not related to math and science. The course covers a broad scope of mathematical topics as they apply to real-world problems. Topics include reasoning and number sense, finance matters, probability and statistics, and modeling. There is an additional \$18.75 electronic textbook/ learning materials fee associate with this course.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Math 1040/Statistics		
96521	15	Prerequisite: Secondary Math 3, Meet SLCC Requirements Description: This course is recommended particularly for students in programs desiring statistical literacy, including (but not limited to) Social Science, Behavioral Science, and Nursing. This course includes descriptive and inferential statistical methods. Emphasis on sampling design; descriptive statistics; linear regression and correlation; probability; sampling distributions; hypothesis testing and confidence intervals.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Math 1050/College Algebra		
96501	15	Prerequisite: Secondary Math 3, Meet SLCC Requirements Description: College Algebra satisfies quantitative literacy requirements for students planning to take calculus. Topics include polynomial, rational, exponential and logarithmic functions; matrices; conics; sequences and series; and mathematical induction.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Math 1060/Trigonometry		
96511	15	Prerequisite: Math 1050 with a C or better Description: This course covers Trigonometric functions and their graphs developed using circular and triangular methods including inverses; polar coordinates; and an introduction to vectors.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Math of Personal Finance		
51270		Prerequisite: Secondary Math 2 Description: This is a course for juniors or seniors designed to follow the completion of Secondary Mathematics 2. The course represents content from mathematics and personal finance that are essential for students who will assume roles as consumers, money managers and members of a global workforce. Topics include careers, budgeting, checking, savings, types of credit,
Grade Level: 44512		
Credit: 1.0	Can count for: Math AAF, Financial Literacy	

		managing credit, investing, financial pitfalls, and taxes. Successful completion of all four quarters of this course will fulfill one credit of supplemental mathematics requirement.
--	--	---

Secondary Math 2		
53100		Prerequisite: Secondary Math 1
Grade Level: 10		Description: Students in Secondary Mathematics 2 will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations.
Credit: 1.0	Can count for: Math Core	

Secondary Math 2 Honors		
53110		Prerequisite: Secondary Math 1
Grade Level: 10		Description: Students in Secondary Mathematics 2 Honors will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations. Honors students will also represent complex numbers and their operations on the complex plane, solve systems of equations, prove and apply trigonometric identities, and express conic sections algebraically.
Credit: 1.0	Can count for: Math Core	

Secondary Math 2A		
53102		Prerequisite: Referral from 9th grade teacher
Grade Level: 10	Referral	Description: Students in Secondary Mathematics 2A will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations. This course is for students in Secondary Math 2 who need extra help in their core math course. The course will review key concepts that are necessary for the students to be successful in their core class
Credit: 1.0	Can count for: Math Core	

Secondary Math 3		
53200		Prerequisite: Secondary Math 2
Grade Level: 10 - 12		Description: Students in Secondary Mathematics 3 will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems.
Credit: 1.0	Can count for: Math Core	

Secondary Math 3 Blended		
53201		Prerequisite: Secondary Math 2
Grade Level: 10 - 12	Blended	Description: This course is recommended for students who would like flexibility within the school day schedule, and who are excellent time managers and self-advocates. Students must be dedicated to communicating regularly with the classroom teachers. Students attendance is mandatory for assessments, and or retakes at the end of each module. Which will be between 3-5 times a quarter. It may also be mandatory for small learning groups to come in for extra help when you have fallen behind. Most of the work is completed online via the Canvas LMS. The teacher is available during assigned class periods to support students.
Credit: 1.0	Can count for: Math Core	Students in Secondary Mathematics 3 will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problem

Secondary Math 3 Honors		
53210		Prerequisite: Secondary Math 2
Grade Level: 10 - 12		Description: Students in Secondary Mathematics 3 Honors will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems. Honors students will also use logarithmic and trigonometric functions, build functions from existing functions, extend the domain of trigonometric functions using the unit circle, and prove trigonometric identities. Students completing Secondary Mathematics 1, 2, and 3 are prepared for Calculus.
Credit: 1.0	Can count for: Math Core	

Secondary Math 3A		
53202		Prerequisite: Referral from Math 2A teacher
Grade Level: 11 - 12		Description: Students in Secondary Mathematics 3A will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems. This course is for students in Secondary Math 3 who need extra help in their core
Credit: 1.0	Can count for: Math Core	

		math course. The course will review key concepts that are necessary for the students to be successful in their core class.
--	--	--

SOCIAL STUDIES

AP European History		
61030	§	Description: This college-level course in European history is intended for the above average history student. Emphasis is placed on advanced study, research, and analytical skills. The course covers European history from 1450 C.E. to the present and focuses on intellectual-cultural, political-diplomatic, and social-economic history. University credit can be earned with a successful performance on the Advanced Placement (AP) exam. This course fulfills the WH core requirement for graduation for 10th grade, or a social studies elective for grades 11-12.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: World History	

American Women's History		
61191		Description: This course focuses on the contribution of women in American society. The course covers women's history from colonial times to the present. Special emphasis is placed on biography, individual research and special projects.
Grade Level: 11 - 12		
Credit: 0.5	Can count for: Elective	

AP American Government Politics		
61240	§	Description: This advanced course on U.S. Government and Politics will introduce students to the foundations of the U.S. Constitution, the workings and structure of the United States government, and the evolution of that government throughout American history. The course covers breaking down the Constitution itself, the structure of the U.S. government, the rights and liberties of American citizens, important Supreme Court cases in American history, civic participation and behavior, as well as the study of critical documents from different areas of U.S. Government. This course will prepare students for successful completion of the AP U.S. Government and Politics test.
Grade Level: 12	AP	
Credit: 1.0	Can count for: Government	

AP World History: Modern		
61140	§	Description: AP World History: Modern is an introductory college-level modern world history course. Students cultivate their understanding of world history from c. 1200 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: World History	

Psychology 1		
61331		

Grade Level: 10 - 12		Description: This course covers the history of psychology, research methods, biological bases of behavior, sensation/perception, states of consciousness, learning, and developmental psychology.
Credit: .5	Can count for: Elective	

Psychology 2		
61341		Description: This course covers the understanding of cognition, motivation, emotion, personality, testing, abnormal psychology, treatment of psychological disorders, and social psychology.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

Psychology AP		
61350	\$	Description: This college-level course covers the history of psychology, research methods, biological bases of behavior, sensation/perception, states of consciousness, learning, cognition, motivation, developmental psychology, personality, testing, abnormal psychology, treatment of psychological disorders, and social psychology. Students should be able to read college-level texts and apply the conventions of Standard Written English in their writing. University credit can be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Elective	

Sociology 1		
61401		Description: Sociology is the study of society and social relationships. Since most human behavior is social, sociology subject matter ranges from family to the internet, organized crime and deviant behavior to religious traditions, race and gender inequality to a shared common culture. We observe, experiment, and create meaningful projects to learn why people do the things they do. Sociology can set you on a career path in social work and community services, education, law enforcement, marketing and advertising, and business and human resources.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

Sport Psychology		
61361		Description: This course is strongly recommended for competitive athletes and performers interested in learning practical strategies and techniques used by high performers. It is a semester length course taught in a highly energetic and positive environment. The course is open to grades 10-12.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

US Government Citizenship		
61281		Description: This is an introductory course on the structure and evolution of the U.S. government. It will include the structure of government contained in the U.S. Constitution, the rights and liberties of the people, and the duties and responsibilities of U.S. citizens. Upon completion of this course, the student will understand the major ideas, protections, rights, structures, and economic systems that affect the life of a citizen in the United States. Additionally, students will practice the skills needed to
Grade Level: 12		
Credit: .5	Can count for: Government	

		conduct inquiries, weigh evidence, make informed decisions, and participate in political processes.
--	--	---

US Government Citizenship Blended		
61282		Description: This is an introductory course on the structure and evolution of the U.S. government. It will include the structure of government contained in the U.S. Constitution, the rights and liberties of the people, and the duties and responsibilities of U.S. citizens. Upon completion of this course, the student will understand the major ideas, protections, rights, structures, and economic systems that affect the life of a citizen in the United States. Additionally, students will practice the skills needed to conduct inquiries, weigh evidence, make informed decisions, and participate in political processes. Note: this is a blended course, meaning that portions of the class will be conducted in the classroom in person and other portions may be completed at home. In order to succeed in a blended course students must be self-directed and able to complete work on schedule while at home.
Grade Level: 12	Blended	
Credit: .5	Can count for: Government	

US History		
61110		Description: United States History 2 addresses the making of modern America, highlighting the events and issues in United States history from the late Industrial Revolution to modern times. Topics include, but are not limited to, the Industrial Revolution, the Progressive movement, imperialism and foreign affairs, the World Wars, the Great Depression, the Cold War, the civil rights movements, the rise of terrorism, and modern social and political history. The standards can be taught either chronologically or thematically, but are organized into chronological periods. Periodization is an organizational tool historians use to make connections and draw distinctions. Periods are flexible ways of making meaning, and sometimes overlap chronologically. Effort should be made to help students make connections between the events and ideas of the past and their lives today. Contextualizing the study of modern America by helping students make connections across the span of U.S. history can enrich and deepen their understanding of their own place in the American story.
Grade Level: 11		
Credit: 1.0	Can count for: US History	

US History & Language Arts 11 Hybrid/Blended		
61111		Prerequisite: Corequisite: Blended Language Arts 11 Description: This course combines the Utah Core Standards for U.S. History and Language Arts 11. Students receive credit for two full courses. Designed around documents from and about industrialization through today's modern issues, this class focuses on developing critical thinking, evaluation, reading comprehension, and writing skills. Student attendance is mandatory for scheduled discussions, writing conferences, assessments, and review, feedback, and/or retakes at the end of each module, which adds up to less than 10 times a quarter. All
Grade Level: 11	Blended	
Credit: 1.0	Can count for: US History	

		other work will be completed online via a Canvas course, remotely. Teachers are available every day during assigned class periods for support with online content, as well as for scheduled in-person meetings. Recommended for students who require flexibility with scheduling, who are excellent time managers and self advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers. A caution to students: you will be responsible for your progress throughout the course. If you struggle with time management, self-starting, on task behaviors, etc. consult with a teacher or counselor before signing up for this course.
--	--	--

US History AP		
61130	\$	Description: This course is a college-level course in American history from the period of the first European explorations of the Americas to the present. The course emphasizes political institutions and behavior, public policy, social and economic change, diplomacy and human relations, and cultural and intellectual developments. Students should be able to read college-level texts and apply the conventions of Standard Written English in their writing. University credit can be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 11	AP	
Credit: 1.0	Can count for: US History	

US Sports History		
61521		Description: US Sports History is a semester class that looks at how sports have impacted US History, as well as how US History has impacted sports. In this class, we cover College and Pro Basketball, College and Pro Football, Baseball, Tennis, Boxing, Golf, and the Olympics. It's a great class, and if you like sports and history, you'll love this class!
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

World History		
61010		Description: World History addresses events and issues in world history from the earliest evidence of human existence to modern times. Whenever possible, students will be expected to make connections between historically significant events and current issues. These connections are intended to add personal relevance and deepen students' understanding of the world today. Topics include, but are not limited to, the Neolithic Revolution, the dawn of civilization, the development of world religions, patterns in world trade, contributions of classical civilizations, the diffusion of technology, colonization and imperialism, global conflict, modern revolutions and independence movements, and current trends in globalization. The standards can be taught chronologically, thematically, or regionally, but are organized into chronological periods. Periodization is an organizational tool historians use to make connections and draw distinctions. Periods are flexible ways of making meaning, and may overlap chronologically.
Grade Level: 10		
Credit: 1.0	Can count for: World History	

World War II		
61061		Description: This course will be a semester long course covering the causes, course, and results of World War II. The Holocaust, as well as aggression in Europe and Asia/Pacific will also be discussed. In addition, the long term effects of the war on the soldiers, civilians, the home front, the economy and society will be explored.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective	

SCIENCE

Biology		
31110		Description: An introduction to the unifying principles of biology with emphasis on interactions with organisms and the environment, structure and function of life, genetic patterns, and evolutionary change. Science and engineering practices developed through hands on experimentation and interactions with current scientific literature. Great ACT preparation.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Biology Blended		
31111		Description: An introduction to the unifying principles of biology with emphasis on interactions with organisms and the environment, structure and function of life, genetic patterns, and evolutionary change. Science and engineering practices developed through hands on experimentation and interactions with current scientific literature. Great ACT preparation. Student attendance mandatory for scheduled labs and assessments. All other work completed online via Canvas course, remotely. Teachers available every day during assigned class periods for support with online content. Recommended for students who require flexibility with scheduling, who are excellent time managers and self advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers.
Grade Level: 10 - 12	Blended	
Credit: 1.0	Can count for: Science Core	

Biology AP		
31120	\$	Description: AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry based investigations as they explore the following topics: evolution, cellular processes, energy and communication, genetics, information transfer, ecology, and interactions.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Science Core	

BIO 1010/1015 Lab		
32210	\$	Prerequisite: Meet SLCC requirements Description: An introduction to Biology for non-science majors. A survey of living diversity from bacteria to plant and animals. Introduces cell structure and physiology, inheritance, evolution and classification. Students can receive college credit if they meet certain grade-based criteria.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: Science Core	

Chemistry		
31210		Description: This is a general high school level chemistry course that will study the Utah Chemistry Science with Engineering Education Standards (SEEd) standards. Students will explore the foundational principles of chemistry that allow students to investigate the ways in which chemistry impacts everyday life. Students investigate the properties and structure of matter at atomic and subatomic scales to explain how they influence a system's larger scale, structures, properties, and functions.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Chemistry Blended		
31211		Description: A general chemistry online course developed and taught by Riverton High science teachers. Most of the learning will take place on line outside of school in this home/school blended course. Labs and exams will be in class during the assigned period. Only students that are goal oriented and are self-starters should take this course. The Chemistry Science with Engineering Education Standards (SEEd) standards explore the foundational principles of chemistry that allow students to investigate the ways in which chemistry impacts everyday life. Students investigate the properties and structure of matter at atomic and subatomic scales to explain how they influence a system's larger scale, structures, properties, and functions.
Grade Level: 10 - 12	Blended	
Credit: 1.0	Can count for: Science Core	

Chemistry Honors		
31220		Description: This Honors Chemistry course moves at a faster pace and covers more topics than general chemistry. This class is better preparation for college chemistry or AP chemistry. The Chemistry Science with Engineering Education Standards (SEEd) standards explore the foundational principles of chemistry that allow students to investigate the ways in which chemistry impacts everyday life. Students investigate the properties and structure of matter at atomic and subatomic scales to explain how they influence a system's larger scale, structures, properties, and functions.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Chemistry AP		
31230		Description: Advanced Placement (AP) Chemistry is a full-year introductory college course. The study includes advanced theoretical and physical understanding of chemistry. University credit can be earned with a successful performance on the AP Chemistry exam. It is recommended that students have completed a high school level college course, but students with strong study skills have been successful in this intensive course.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Science Core	

Physics		
31310	\$40.00 optional fee	Description: Physics is a full year course involving a blend of conceptual and mathematical approaches to problem solving. In addition to content covering dynamics, energy, waves, and fields, we will engage in many hands-on labs where students can engineer unique solutions to problems.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Physics Blended		
31311		Description: A general physics online course developed and taught by Riverton High science teachers. Most of the learning will take place on line outside of school in this home/school blended course. Labs and exams will be in class during the assigned period. Only students that are goal oriented and are self-starters should take this course. Physics is a full year course involving a blend of conceptual and mathematical approaches to problem solving. In addition to content covering dynamics, energy, waves, and fields, we will engage in many hands-on labs where students can engineer unique solutions to problems.
Grade Level: 10 - 12	Blended	
Credit: 1.0	Can count for: Science Core	

Physics Honors		
31340	\$40.00 optional fee	Description: Honors Physics is a faster paced Physics course involving a blend of conceptual and mathematical approaches to problem solving. In addition to content covering dynamics, energy, waves, and fields, we will engage in many hands-on labs where students can engineer unique solutions to problems. This is a full-year course.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Physics AP		
31360	\$40.00 optional fee	Description: Advance Placement (AP) Physics 1 is a full-year introductory college course. University credit can be earned for this course through successful performance on the AP Physics 1 exam. This course is algebra-based and promotes practically-applied mathematics to solve a variety of problem sets. Students should have a grasp of basic trigonometry before enrolling in this course. If you enjoy math, and the weird and wacky, give AP Physics 1 a try!
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Science Core	

Agriculture Science 1		
82040		Description: Students will develop knowledge and skills that will provide a foundation for courses in animal science, plant science, horticulture, agriculture systems and technology, and natural resources. Topics covered include basic animal, plant, soil science; natural resources; food science technology, agribusiness, personal and leadership development. Emphasis is put on current trends and career opportunities.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science AAF, CTE	

Animal Science 1		
82010	15	Description: Students will develop knowledge and skills in a wide range of scientific principles, including genetics, anatomy, physiology, nutrition, disease, reproduction, and management practices. Students will have a better understanding of the livestock and meat industries and will be better prepared to understand modern day agricultural issues. This course is highly recommended for those wanting to move on the veterinary program at the JATC. There is no need for prior animal or agriculture experience.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science AAF, CTE	

Astronomy		
31411		Description: Students who are interested in increasing their knowledge of space, the stars, the planets, and other related topics will find this course engaging, entertaining, and enlightening! We will begin the course with a look at ancient astronomers and the events that lead up to the Scientific Revolution. From there, we will learn about our Sun, moon, and the planets of our solar system. Taking that knowledge past the bounds of the familiar, we will delve into the realm of stars, alien planets, and galaxies! This semester-long course finishes with a look into the weird science of black holes, wormholes, and dimensions.
Grade Level: 10 - 12		
Credit: .5	Can count for: Science AAF	

Computer Program 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: Science Core, CTE, DS, Math AAF	

Medical Anatomy and Physiology		
91200		Prerequisite: Health Science, Intro recommended, but not required
Grade Level: 11 - 12		
Credit: 1.0	Can count for: CTE, Science AAF	Description: If you are interested in a medical career or want to get into the JATC health career programs this class is a must! This class prepares students for the medical field by gaining a base understand of the human body. It is recommended students take intro to health science prior, but is not required. We will do many hands on dissections to help students visually understand the material. Students are more likely to succeed in JATC medical programs when taken this class prior to their JATC program.

HTHS 1110/1111 Human Anatomy 1 & 2		
91281/91291		Prerequisite: Health Science, Intro highly recommended, but not required
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE, Science AAF	Description: This is a college anatomy course taught through Weber and proctored by Ms. Elliott. This anatomy credit is a prerequisite to KL,,,all medical careers. Any student who is pursuing a medical career should take this course. You will be receiving college credit for a high school student discounted tuition rate! This class requires 10-12 hours of work outside of class per week, but it is well worth the work. Students have shown higher success rates in this class when taken in high school versus college.

Wildlife Biology		
31600		Description: This course builds off of general biology and highlights wildlife and the ecosystems they inhabit. The following
Grade Level: 10 - 12		

Credit: 1.0	Can count for: Science AAF	topics are covered throughout this course: basic ecological principles and classification of organisms, comparing and contrasting the characteristics of various animals and plants, North American wildlife history, wildlife management, and wildlife preservation and conservation issues.
-------------	-------------------------------	---

Zoology		
31631		Description: Zoology is the study of the world of animals. Animal body structures, physiology, behaviors, habitats and classification are examined in this field of study.
Grade Level: 10 - 12		
Credit: .5	Can count for: Science AAF	

Computer Programming 2		
8122		Prerequisite: Computer Programming 1 OR Teacher Approval Description: Programming 2 is a problem solving class that builds on the concepts introduced in Computer Programming 1. The course introduces students to more complex data structures and their uses, including sequential files, arrays and classes using the Java programming language.
Grade Level: 44481		
Credit: 0.5	Can count for: CTE, S, Math AAF	

DIGITAL STUDIES

Business Office Specialist		
83161	10	Description: Find out why Microsoft Office is used by 80% of the largest and most successful companies in America. This class focuses on three key Microsoft Applications: Word, Excel, and PowerPoint. Learn how to create and edit intricate word documents, manage data in spreadsheets, and put together strong presentations. There is a strong chance you will need to know this software in college and in the professional world, get a leg up now.
Grade Level: 10 - 12		
Credit: .5	Can count for: DS, CTE	

Computer Programming 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: DS, Math AAF, Science Core, CTE	

Web Develop 1		
81281		Description: Ever wonder why websites look the way that they do? If you have this class is for you! Web Development is an introduction to web based coding which allows students to create their own websites from scratch. Basic languages covered include HTML, CSS, and Javascript. This class also creates images to display on web sites using Adobe Photoshop. Anyone who likes to create content and problem solve would be a good fit for this class.
Grade Level: 10 - 12		
Credit: .5	Can count for: DS, CTE	

FINANCIAL LITERACY

Financial Literacy		
22001		Description: This is one of the most important classes you will take in high school! Learn how manage your own finances and survive in the real world. Topics covered include: budgeting, investing, credit, and taxes among others. All units cover material that will be used in your day to day adult life.
Grade Level: 11 - 12		
Credit: .5	Can count for: Fin Lit	

HEALTH & PHYSICAL EDUCATION

DANCE

Ballroom 1		
71441		Description: Ballroom-1 This Social Dance class focuses on learning the basics of Ballroom technique, steps, and basic choreography. Students will learn the (Bronze) level steps for Waltz, Tango, Cha Cha, Swing, and Salsa!
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Ballroom 2		
71451		Prerequisite: Ballroom 1 Description: Ballroom-2 This class will review the (Bronze) level steps taught in the beginning class and then learn the (Silver) level steps. Students will also learn 2 additional dances, Viennese Waltz and Samba. A higher level of technique will be stressed.
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Ballroom 3		
71501		Prerequisite: Instructor approval Description: This course offers advanced instruction in the elements of design, dance, choreography, and technique (ballroom and other forms) with an emphasis in performance. This course expands the student's experience with critical thinking and learning how to artistically infuse concepts like historical and cultural contexts within their performance. Students are expected to work as team members and manifest a higher level of technique and artistry in their performance. This course offers a strong focus on self/group analysis, creativity and what it means to be a responsible partner and performer; as well as the steps necessary in preparing an actual dance performance.
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Dance 1		
71401		Description: This is an introduction to all genres of dance. This course offers instruction in the basic fundamentals of dance techniques and composition.
Grade Level: 10 - 12		
Credit: .5	Can count for: Art, ILA	

Dance 2		
71411		Prerequisite: Dance 1

Grade Level: 10 - 12		Description: This class teaches intermediate dance technique with emphasis on techniques, choreography, and improvisation.
Credit: .5	Can count for: Art, ILA	

Dance 3		
71420		Prerequisite: Instructor Approval
Grade Level: 10 - 12		Description: This is an advanced course in dance technique, with further development of skills in choreography and composition. There will be performances outside of class time that are part of the course requirements, and they will constitute a portion of the grade.
Credit: 1.0	Can count for: Art, ILA	

Dance Company		
71430		Prerequisite: Audition
Grade Level: 10 - 12	Audition	Description: This is a performing group where members refine skills in all forms of dance and choreography. School and community performances are given throughout the year. Performances as well as rehearsals outside of the regular school day are required and constitute a portion of the course grade.
Credit: 1.0	Can count for: Art, ILA	

Drill Team		
72040	\$	Prerequisite: Audition
Grade Level: 9 - 12	Audition	Description: This course will cover the rehearsal and performance aspect of various dance styles and students will learn the elements of performance, choreography and production. The team creates routine based on precision dance movements and may perform at athletic events promoting school spirit through performances and other extracurricular activities.
Credit: 1.0	Can count for: ILA	

HEALTH

Health Ed 2		
71001		Description: This course emphasizes the physical, social, and mental health dimensions people make in their lives and offers students an opportunity to evaluate health practices, products, and services.
Grade Level: 10 - 12		
Credit: .5	Can count for: Health	

Health Science, Intro		
71010	10	Description: If you are interested in going into the medical field this year long class is the class for you. It is a combination of Health and introduction into the anatomy/physiology, medical terminology, medical ethics, diseases and disorders of the 11 body systems. This course prepares students for the Medical Anatomy/Physiology course and a variety of other pathways and classes in the medical field. This class will include many dissections and hands-on activities that will compliment the learning environment.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Health .5 CTE .5	

PHYSICAL EDUCATION

Fitness For Life		
71201		Description: This class is required for graduation. This course is designed for continued physical fitness improvement with an increased understanding of the components that make up fitness i.e., heart/lung fitness, strength, flexibility, muscle endurance, weight control/nutrition, and stress management.
Grade Level: 10 - 12		
Credit: .5	Can count for: Fitness for Life	

Aerobics		
71251	5	Description: This course is designed to help individuals become physically fit through continuous movement activities to music.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Powerlifting		
71320		Prerequisite: Football Description: This is an advanced weight training course that offers instruction in heavy powerlifting routines. It stresses strength, weight gains, and flexibility for injury prevention and agility. The course is designed to offer a higher level of proficiency and more in-depth instruction in weight training. Students learn that weight training is a fitness activity with many benefits, including improving personal health, increasing longevity, and quality of life through the reduction of stress. Through focused instruction, students are able to identify the benefits and dangers of various dietary supplements such as vitamins, minerals, herbs, power drinks, steroids, and performance enhancing drugs.
Grade Level: 11	Permission	
Credit: .5	Can count for: ILA	

Powerlifting		
71323		Prerequisite: Football Description: This is an advanced weight training course that offers instruction in heavy powerlifting routines. It stresses strength, weight gains, and flexibility for injury prevention and agility. The course is designed to offer a higher level of proficiency and more in-depth instruction in weight training. Students learn that weight training is a fitness activity with many benefits, including improving personal health, increasing longevity, and quality of life through the reduction of stress. Through focused instruction, students are able to identify the benefits and dangers of various dietary supplements such as vitamins, minerals, herbs, power drinks, steroids, and performance enhancing drugs.
Grade Level: 10	Permission	
Credit: .5	Can count for: ILA	

Sport Perf Baseball Semester 1		
72202		Prerequisite: Baseball experience Description: Students trying out for the Baseball team are encouraged enroll in this course during 1st Semester.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Sports Perf Cross Country		
72200	5	Description: Before enrolling in this class it is recommended that you are currently exercising for at least 30 minutes every
Grade Level: 10 - 12		

Credit: .5	Can count for: ILA	day. This course is a high level fitness class where you will train hard to achieve fitness gains to better improve your sports performance.
------------	--------------------	--

Sports Perf Track		
72201	5	Description: Before enrolling in this class it is recommended that you are currently exercising for at least 30 minutes every day. This course is a high level fitness class where you will train hard to achieve fitness gains to better improve your sports performance.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Team Sports		
71101	5	Prerequisite: Recommended Prerequisite: Fitness for Life or counselor approval Description: This is a one semester elective course designed to teach students the basic rules and strategies of various team sports. This will include, but not be limited to the following: flag football, basketball, soccer, softball, tennis, volleyball, badminton, pickleball. Team and some individual participation will be required.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA, PST	

Weight Training 1		
71301	5	Description: This is a one semester elective course that will introduce weight lifting. Students will learn beginner lifts for arms, legs and core. They will also be able to identify the basic muscles used, learn proper techniques, track their progress, and demonstrate weight room safety.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Weight Training 2		
71311	5	Prerequisite: Weight Training 1 Description: This course is a continuation of Weight Training 1, emphasizing further development of programs that develop body tone, muscle strength, and physical condition.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA	

Yoga		
71261	5	Description: Yoga means Union. It is a balance of the mind, body, and soul.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA	

ART

DANCE

Ballroom 1		
71441		Description: Ballroom-1 This Social Dance class focuses on learning the basics of Ballroom technique, steps, and basic choreography. Students will learn the (Bronze) level steps for Waltz, Tango, Cha Cha, Swing, and Salsa!
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Ballroom 2		
-------------------	--	--

71451		Prerequisite: Ballroom 1 Description: Ballroom-2 This class will review the (Bronze) level steps taught in the beginning class and then learn the (Silver) level steps. Students will also learn 2 additional dances, Viennese Waltz and Samba. A higher level of technique will be stressed.
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Ballroom 3		
71501		Prerequisite: Instructor approval Description: This course offers advanced instruction in the elements of design, dance, choreography, and technique (ballroom and other forms) with an emphasis in performance. This course expands the student's experience with critical thinking and learning how to artistically infuse concepts like historical and cultural contexts within their performance. Students are expected to work as team members and manifest a higher level of technique and artistry in their performance. This course offers a strong focus on self/group analysis, creativity and what it means to be a responsible partner and performer; as well as the steps necessary in preparing an actual dance performance.
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Dance 1		
71401		Description: This is an introduction to all genres of dance. This course offers instruction in the basic fundamentals of dance techniques and composition.
Grade Level: 10 - 12		
Credit: .5	Can count for: Art, ILA	

Dance 2		
71411		Prerequisite: Dance 1 Description: This class teaches intermediate dance technique with emphasis on techniques, choreography, and improvisation.
Grade Level: 10 - 12		
Credit: .5	Can count for: Art, ILA	

Dance 3		
71420		Prerequisite: Instructor Approval Description: This is an advanced course in dance technique, with further development of skills in choreography and composition. There will be performances outside of class time that are part of the course requirements, and they will constitute a portion of the grade.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Art, ILA	

Dance Company		
71430		Prerequisite: Audition Description: This is a performing group where members refine skills in all forms of dance and choreography. School and community performances are given throughout the year. Performances as well as rehearsals outside of the regular school day are required and constitute a portion of the course grade.
Grade Level: 10 - 12	Audition	
Credit: 1.0	Can count for: Art, ILA	

Colorguard		
13510	\$	Description: This course is designed for students who wish to perform, dancing, spinning flags, and rifles. Emphasis is on growth and technical skill. Rehearsals and performances outside of class time are part of the course requirements and constitute a portion of the grade. Audition may be required.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

MUSIC

Bell Choir		
13370		Description: Riverton's Bell Choir is a unique music class, being one of only a few in the entire state. This course teaches the coordination and performance of the English Handbells. The Riverton Bell Choir performs at community events and school functions, and occasionally rehearses outside of class time. Those with piano backgrounds can make a great contribution to Bell Choir. Knowledge of music (i.e., note values and note names) is preferred, but not required. Open Enrollment to those willing to dedicate themselves to the music and the ensemble.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Art	

Mixed Choir		
13340		Description: Riverton's Mixed Choir Level 1 choir is a place for all students to sing together in a fun no pressure environment. It is Open Enrollment for Men and Women of 10-12th grades. The basics of singing and reading music are taught. However, students will go beyond this into harmony and part singing, and performing. This class is excellent preparation for advancement to the auditioned choirs of Men's Chorus, Cadence, Acappella & Madrigals. Come have a fun time learning the skill of singing!
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Art

Credit: .5	Can count for: Art, CTE	

CTE (CAREER & TECHNICAL EDUCATION)

AGRICULTURE

Agriculture Science 1		
82040		Description: Do you like plants and animals? If you said yes to both and want to learn hands on then this is the class for you. This is a great class to learn about agriculture and science. This is a very hands-on class and there are lots of fun projects we do within our classroom, whether that be growing plants, raising trout, or playing with animals. Why not learn about something by actually doing it and not by a textbook.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: CTE, Science AAF	

Animal Science 1		
82010	\$15.00	Description: Do you love animals? If so, Animal Science is the class for you! We have bunnies for you to love and hold while learning. You will learn about livestock, the meat industry, have a better understanding of how animals work and how to take care of them. This course is highly recommended for those wanting to move on to the veterinary program at the JATC. There is no need for prior animal or agriculture experience.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: CTE, Science AAF	

Floriculture		
82081	\$20.00	Description: Have you ever made a floral arrangement for a wedding and/or prom? You could save money or even make it by taking this class. This class teaches the ability to make corsages, boutineers, bouquets, centerpieces and so much more. We will learn about different styles, techniques, and functions of different flowers and arrangements.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

BUSINESS

Accounting 1		
83001		Description: "Accounting is the language of Business!" This course provides students with the knowledge of business organizations by understanding the accounting theory, concepts and procedures. Accounting 1 focuses on the double-entry accounting systems related to a service business organized as a sole proprietorship. Students will acquire knowledge of journalizing and posting transactions, worksheets, financial statements and accounting concepts and procedures essential to the accounting cycle.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE, Math AAF	

Accounting 2		
83011		Prerequisite: Accounting 1 Description: Accounting 2 continues to apply the concepts of double-entry accounting to a merchandising business. Additional skills include dealing with uncollectible accounts, calculating depreciation on assets, interpreting financial information, calculating notes and interest, payroll systems and special journals.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE, Math AAF	

Business Management		
83081		Description: Have you ever thought about being your own boss? Do you want to call the shots and reap the benefits of being in charge? Do you want to learn what makes Elon Musk or Jeff Bezos successful? What is the difference between Bill Gates and Michael Scott? Join the discussion in Business Management. This course seeks to develop sound management concepts within students, as management plays a role in any future employment opportunity. Students are able to analyze, synthesize, and evaluate data from the other functional areas of business (e.g., marketing, finance, and production/operation).
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

		Effective management requires decision-making abilities, long-range planning knowledge, human relations expertise, and motivational skills. Students learn the four basic functions of management: planning, organizing, directing, and controlling.
--	--	--

AUTO 1		
82511	\$10.00	Description:
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

AUTO 1 CE (AUSV 1000)		
90431	\$10.00	Description: This is the concurrent enrollment course for AUTO 1. It is a "mixed" class meaning students can take it for high school credit only or for concurrent enrollment credit (high school + college credit) . Through demonstrations, lectures, research and practical experiences is designed to introduce the
Grade Level: 10 - 12	CE	
Credit: .5	Can count for: CTE	

		student to a broad experience in the use of: equipment, tools, materials, processes and techniques of automotive service.
--	--	---

AUTO 2 (ASE Chassis MLR)		
82520	\$20.00	Prerequisite: Auto 1 or AUSV 1000 Description: Do you want to learn more about cars now that you have taking Intro to Auto? This is the next class you NEED to take! This is an entry-level course in Automotive Service on a college level. An introductory course providing fundamentals of operation and maintenance procedures including: researching service information, shop safety, tool, and equipment use, maintenance and light repair service procedures. Prerequisite to additional AUTO courses.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

AUTO 2 CE Sem 1 (AUSV 1021)		
90441	\$20.00	Prerequisite: Auto 1 or AUSV 1000 *You must take AUTO 2 CE SEM 2 course as well. Description: Do you want to learn more about cars now that you have taking Intro to Auto? This is the next class you NEED to take! This is the concurrent enrollment course for AUTO 2, 1st Semester. AUSV 1021 Automotive Braking Systems. This is an entry-level course in Automotive Service on a college level. An introductory course providing fundamentals of operation and maintenance procedures including: researching service information, shop safety, tool, and equipment use, maintenance and light repair service procedures. Prerequisite to additional AUTO courses.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

AUTO 2 CE Sem 2 (AUSV 1022)		
90451	\$20.00	Prerequisite: Auto 1 or AUSV 1000 *You must take AUTO 2 CE SEM 2 course as well. Description: Do you want to learn more about cars now that you have taking Intro to Auto? This is the next class you NEED to take! This is the concurrent enrollment course for AUTO 2, 2nd Semester. AUSV 1022 Steering & Suspension. This is an entry-level course in Automotive Service on a college level. An introductory course providing fundamentals of operation and maintenance procedures including: researching service information, shop safety, tool, and equipment use, maintenance and light repair service procedures. Prerequisite to additional AUTO courses. *This course covers the same material as the 2nd Semester AUTO 2 course.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

AUTO 3 (ASE Engine MLR)		
82580	\$20.00	Prerequisite: ASE Chassis MLR or AUSV 1000 Description: Ready to get a job as an Auto Technician? This is your next step! This course covers diagnostic and repair procedures involved in electrical and electronic systems with practical application of Ohm's law. Hands-on diagnosis and repair of charging, starting, lighting, electronic accessory, and supplemental restraint systems. *This course covers the same
Grade Level: 11 - 12		
Credit: 2.0	Can count for: CTE	

		material as the AUTO 3, 2nd semester course. You will need 2 periods to dedicate to this class.
--	--	---

AUTO 3 CE Sem1 (AUSV 1320)		
90471	\$20.00	Prerequisite: AUTO 2 or AUSV 1021/1022 *You must take AUTO 3 CE SEM 2 course as well. Description: Ready to get a job as an Auto Technician? This is you next step! This course covers diagnostic and repair procedures involved in electrical and electronic systems with practical application of Ohm's law. Hands-on diagnosis and repair of charging, starting, lighting, electronic accessory, and supplemental restraint systems. *This is the concurrent enrollment course for AUTO 3, 1st Semester. (AUSV 1320 Automotive Electronics) You will be in this class for 2 periods.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

AUTO 3 CE Sem 2 (AUSV 1120)		
90461	\$20.00	Prerequisite: AUTO 2 or AUSV 1021/1022 *You must take AUTO 3 CE SEM 1 course as well. Description: Ready to get a job as an Auto Technician? This is you next step! This course covers diagnostic and repair procedures involved in electrical and electronic systems with practical application of Ohm's law. Hands-on diagnosis and repair of charging, starting, lighting, electronic accessory, and supplemental restraint systems. *This is the concurrent enrollment course for AUTO 3, 2nd Semester. (AUSV 1120 Automotive Engine) You will be in this class for 2 periods.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

Law Enforcement

Taught by the RHS Student Resource Officer
Grade Level: 11 - 12		
Credit: .5	Can count for: CTE	

Small Engine Repair		
82531	\$10.00	Description: Do you like knowing how things work and how to fix things? Take this class to learn the basics of small engines and learn how to maintain and repair small internal-combustion engines used on portable power equipment, such as lawn and garden equipment. Work ethics, productivity, and safety are an integral part of the classroom and laboratory activities of these classes.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

Woods 1		
89021	\$20.00	Description: Do you need a class where you can get your hands dirty and learn a new skill? This course prepare individuals to use power tools and machinery. This is an activity-oriented course open to all students that covers the fundamentals of woodworking. Students receive instruction related to safety, proper use of tools, operation of woodworking equipment, joinery, wood finishing, and the many processes used to
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

		transform lumber into finished products. Student project will be a side table with a drawer.
--	--	--

Woods 2		
89031	\$30.00	Prerequisite: Woods 1 Description: If you loved Woods 1 you need to take this class to learn more woodworking skills. This course will allow you to apply technical knowledge and skills to prepare and execute furniture design projects; assemble and finish furniture articles; repair furniture; and stresses the safe use a variety of hand and power tools and machinery. Students will make a 30" tall Bookcase of a 24" tall nightstand.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

Woods 3		
89100	\$30.00	Prerequisite: Woods 2 Description: If you want to come up with your own project to make, this is your class! You will learn how to operate industrial woodworking machinery, and to use machinery to design and fabricate custom cabinets and architectural millwork. It stresses the safe use of trade hand and power tools and machinery used in the production of millwork items. Cabinets, such as kitchen and vanities are constructed, finished, and installed as part of this program.
Grade Level: 11 - 12		
Credit: 1.0	Can count for: CTE	

Woods 3 CE (CMGT 1220, Woodworking & Millwork)		
98600	\$30.00	Prerequisite: Woods 2 Description: Concurrent Enrollment credit for the Woods 3 course. If you want to come up with your own project to make, this is your class! You will learn how to operate industrial woodworking machinery, and to use machinery to design and fabricate custom cabinets and architectural millwork. It stresses the safe use of trade hand and power tools and machinery used in the production of millwork items. Cabinets, such as kitchen and vanities are constructed, finished, and installed as part of this program.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

VISUAL TECHNOLOGY

Art 1080 Photoshop & Digital Media		
10761	\$35 optional	Description: The course focus will be on using Adobe Photoshop as a tool to produce CG imagery for web design, video production, photo illustration, digital publishing and animation. Adobe Illustrator, Premiere, inDesign HTML, and Autodesk Maya will be introduced as required. This is a college course taught in conjunction with Digital Graphic Arts Intro. Students who want the college credit will be required to do extra assignments.
Grade Level: 10 - 12	CE	
Credit: .5	Can count for: CTE	

Commercial Art 1		
86511		

Grade Level: 10 - 12		Description: A course in the applied visual arts that focuses on the general principles and techniques for effectively communicating ideas and information and promoting products to business and consumer audiences. This course prepares individuals in any of the applied art media including, drawing, painting, computer graphics, and others.
Credit: 0.5	Can count for: CTE

86501		Prerequisite: Commercial Art 1 OR ART 1080
Grade Level: 10 - 12		Description: This course in the applied visual arts that prepares individuals to use artistic techniques to effectively communicate ideas and information to business and consumer audiences via illustrations and other forms of digital or printed media. Instruction includes training in concept design, layout, and techniques such as screen printing, drawing, cartooning, painting, collage and computer graphics.
Credit: 0.5	Can count for: CTE	

Computer Program 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE, DS, S, Math AAF	

Computer Programming 2		
8122		Prerequisite: Computer Programming 1 OR Teacher Approval
Grade Level: 44481		Description: Programming 2 is a problem solving class that builds on the concepts introduced in Computer Programming 1. The course introduces students to more complex data structures and their uses, including sequential files, arrays and classes using the Java programming language.
Credit: 0.5	Can count for: CTE, S, Math AAF	

Digital Photography 1 (Commercial Photography 1)		
86071	\$	Description: This course is an introduction to the field of commercial photography. This course will cover a number of basic concepts, including but not limited to: purchasing a digital camera; image capture; image editing; and image output. This course will also feature Adobe Photoshop, its features and use. These concepts will enable the student to be more knowledgeable and prepared to enter the field of commercial photography. If available students are advised to continue on with the Commercial Photography 2 or AP 2D Studio Art course. CAMERA REQUIREMENT It is recommended that students have access to a Digital SLR camera. SOFTWARE REQUIREMENT Photoshop or Photoshop Elements, Adobe Lightroom
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

Digital Photography 2 (Commercial Photo 2)		
86091	\$	Prerequisite: Commercial Photo 1

Grade Level: 10 - 12		<p>Description: This course is designed for students who want to further enhance their photographic knowledge and abilities. It is an application of the skills learned in Digital Photography with an emphasis on professional jobs and assignments used in commercial photography. A portfolio of each student's work is expected at the end of the course.</p> <p>Since there is an industry standard for this type of work, access to a Digital SLR camera is required for the Commercial Photography course. Schools may provide necessary equipment to complete the course.</p> <p>Prerequisite: Commercial Photography 1</p>
Credit: .5	Can count for: CTE	

Video Production 1		
85081	\$20.00	<p>Description: This course is designed to provide students with the basic knowledge and skills related to the television production industry. Instruction includes hands-on assignments in the following areas: camera operation, recording audio, lighting systems, pre-production, production, post-production, visual effects and graphics, and copyright laws. Participation in the SkillsUSA youth leadership organization may be an integral part of this course.</p>
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE	

Video Production 2 (Silverscreen)		
85091	\$20.00	<p>Prerequisite: Video Production 1 OR Teacher Approval</p> <p>Description: Students in this course will produce a weekly video to highlight what is happening at Riverton High. This course is designed to provide students with advanced knowledge and skills related to the television production industry. Instruction includes hands-on assignments in the following areas: camera operation, recording audio, lighting systems, pre-production, production, post-production, visual effects and graphics, and copyright laws. Students MUST apply to be in this class. Applications available here</p>
Grade Level: 10 - 12	Application	
Credit: 1.0	Can count for: CTE	

Film 1045 Beginning Film Production		
16600	\$20 required \$15 Optional	<p>Description: An intensive workshop experience in which students, crewing in their area of specialization, complete the shooting and post-production of projects up to 15 minutes in length.</p>
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: CTE	

Web Development 1		
81281		<p>Description: Ever wonder why websites look the way that they do? If you have this class is for you! Web Development is an introduction to web based coding which allows students to create their own websites from scratch. Basic languages covered include HTML, CSS, and Javascript. This class also creates images to display on web sites using Adobe Photoshop. Anyone who likes to create content and problem solve would be a good fit for this class.</p>
Grade Level: 10 - 12		
Credit: .5	Can count for: CTE, DS	

WORLD LANGUAGE

American Sign Language 1		
41700	\$5.00	Description: This course has been designed to give students an introduction to American Sign Language (ASL) and the deaf community. Students will learn basic sentence structures and common vocabulary. Students will learn appropriate cultural behaviors as well as study important people and events in deaf history and their impact on society. This course will be conducted predominantly in ASL, a deaf-friendly voice-off environment.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Elective	

American Sign Language 2		
41710	\$5.00	Prerequisite: ASL 1 Description: This course will build upon skills learned in ASL 1 to give a deeper look at the syntax and the unique structures of ASL; the history of the Deaf community and Deaf education, and the Deaf community living in a hearing world. Expressive skills and receptive skills will be enhanced with interactive lessons, activities, and peer partner work. This class may fill the foreign language requirement at universities in Utah. NCAA approved. Prerequisite: American Sign Language 1. Class fee required.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Elective	

American Sign Language 3 Honors		
41720	5.00	Prerequisite: ASL 2 Description: This advanced course is designed to increase expressive and receptive fluency, readying students to have authentic conversations with other ASL users. Students will prepare to take the State “Seal of Biliteracy” assessment with interactive lessons and activities, complex conversation practice, and peer partner work. This class may fill the foreign language requirement at universities in Utah. NCAA approved. Prerequisite: American Sign Language 2. Class fee required.
Grade Level: 11 - 12		
Credit: 1.0	Can count for: Elective, Senior Language Arts	

Chinese 2		
41920	\$5.00	Prerequisite: Chinese 1 Description: This course is designed for students who are familiar with the Chinese language. They will be introduced to the principles behind the writing system (radicals and phonetics) as well as the written equivalents for the vocabulary they have learned to speak and understand. Using integrated pedagogical and authentic materials, the course adopts a multi-faceted approach to help students gain training in listening, speaking,
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Elective	

		reading, and writing skills in standard Mandarin Chinese. The goal is the ability to communicate in everyday situations. Aspects of Chinese culture are also introduced.
--	--	--

Chinese 3 Honors		
41930	\$5.00	Prerequisite: Chinese 2 Description: This course is designed to teach advanced skills in listening, speaking, reading, and writing. The course content includes the development of more abstract vocabulary, simple literature, extemporaneous speaking and conversation, and guided composition. Students will develop an appreciation for the arts and culture of countries where the language is spoken.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Elective, Senior Language Arts	

Chinese 4 Honors		
41940	\$5.00	Prerequisite: Chinese 3 Description: This course is designed to teach advanced skills in listening, speaking, reading, and writing. The course content includes the development of more abstract vocabulary, simple literature, extemporaneous speaking and conversation, and guided composition. By the end of this course, student skill level should be at intermediate-mid level according to the American Council on the Teaching of Foreign Language (ACTFL) Standards.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Elective, Senior Language Arts	

Chinese Lang AP		
41950	\$5.00	Prerequisite: Chinese 3 or 4 Description: The Chinese Language and Culture course is designed to be comparable to fourth semester college/university courses in Mandarin Chinese. This course prepares students to demonstrate their level of Chinese proficiency across the three communicative modes (Interpersonal, Interpretive, and Presentational) and the five goal areas (Communication, Cultures, Connections, Comparisons, and Communities) as outlined in the Standards for Foreign Language Learning in the 21st Century. Its aim is to provide students with ongoing and varied opportunities to further develop their proficiency across the full range of language skills within a cultural frame of reference reflective of the richness of Chinese language and culture. University credit may be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Elective, Senior Language Arts	

Chinese 3116 - Exploring China: Past, Present, and YOU		
42010	\$5.00	Prerequisite: 3 or higher on the AP Chinese Exam Description: This course explores Chinese history and traditional cultural values, and connects their influences on the modern Chinese-speaking world. Students will utilize knowledge and language skills learned from the class to understand and discuss both ancient and modern Chinese culture and society.
Grade Level: 10 - 12	CE	
Credit: 1.0	Can count for: Elective	

		The language proficiency goals for this course are: use interpretive communication skills (listening and reading) to discuss familiar topics as well as some concrete social, academic, and professional topics; speak and write with some detail and in an organized way about events and experiences; and share their points of view in discussions on some complex cultural and historical issues.
--	--	---

Chinese 3117 - Chinese Legacies: Tradition & Modernity		
42020	\$5.00	Prerequisite: 3 or higher on the AP Chinese Exam Description: This course explores the impact of traditional Chinese legacy on the formation and transformation of modern Chinese cultural identity. Students will have opportunities to use the knowledge learned in the course to interpret and negotiate various challenges and issues that they confront in their interaction with the Chinese language and culture.
Grade Level: 44116	CE	
Credit: 1.0	Can count for: Elective	

Chinese 3118 - Chinese Pop Culture		
42000	\$5.00	Prerequisite: 3 or higher on the AP Chinese Exam Description: This course considers the role that current media and entertainment play in the Chinese-speaking world. Students in this course will be exposed to the historical and cultural perspectives presented through these media. By the end of this course, students will be able to listen to, read, and discuss familiar topics as well as some concrete social, academic, and professional topics. Students will utilize interpretive communication skills (listening and reading) in order to converse freely about themselves, speak with some detail and in an organized way about events and experiences, and share their point of view in discussions on some complex cultural and historical issues. Student will be able to write to convey personal meaning and have partial ability to write narrative descriptions and summaries.
Grade Level: 44116	CE	
Credit: 1.0	Can count for: Elective
